Requestors MQSeries Information

Queue Manager Name _____
Connection Address (IP and port)³ _____

Username⁴ _____
Password _____

Created By _____

Date 5/9/2006

¹ Enter some information that describes your business unit.

² Contact person should be someone familiar with MQSeries Administration.

³ The courts will need to enter the requestors IP address into its firewall. The Requestor will likewise need to enter the Courts IP address (Connection Address) into its firewall.

⁴ This is the Username and Password that you would like to have returned to you in messages. You can use this Username and Password to authenticate that messages you receive come from the court. They will be contained in WS-Addressing Username tokens within the soap header of received messages.
